FOR TOUR OPERATORS

VISIT KAJAANI-OULUJÄRVI

ARCTIC LAKELAND

Kajaani

Kajaani, the capital and gateway to Arctic Lakeland, is located between Lake Oulujärvi and Lake Nuasjärvi, and River Kajaaninjoki flows through the city. Here you can enjoy unique culture experiences in the junction of rich history and modern cultural life – and feel the touch of nature everywhere you go.

Get inspired by the magic of theater, be amazed by the power of arts and experience always something new in the current of events. Discover local flavors, numerous activities and memorable adventures that Kajaani offers around the year, on all four seasons.

The Kajaani airport is just a 12-minute drive from the city and the train station is located in the city center. Everything else is close too – accommodation, activities, nature, culture. You can spend your time experiencing and enjoying – instead of long transitions from one place to another.

Every visit is a plunge into the Kainuu spirit, where you can be sure to be greeted with genuineness and warmth, time and time again.

Welcome to Kajaani!

Paltamo

Located near Kajaani, Paltamo offers beautiful landscapes differing from the vast Lake Oulujärvi to scenic hill of Kivesvaara, where you can experience the panoramic view across the region. Take a hike or a biking trip and enjoy the peaceful nature of Kainuu!

Due to convenient location among the lakes and rivers, Paltamo has been a part of the significant tar route from forests of Kainuu. Even nowadays Paltamo has two railway stations, which allows easy traveling. Being surrounded by natural waters, Paltamo also provides leisure opportunities such as fishing, canoeing and multiple public beaches for relaxing.

During summer season, one of the top activities in Paltamo is golf. On the shore of Lake Oulujärvi you can spend time on the 18-hole golf course, which is said to be the most beautiful in Finland. If you want to experience something unique, Paltamo is the home of Finland's northernmost toy museum, where the playful exhibition includes nostalgic dolls, stuffed toys, and sculptures through decades.

Welcome to Paltamo!

Castle Ruins

Built in the 17th century, the Kajaani Castle watched over the important waterway between Ostrobothnia and Russia. The castle that also protected the city of Kajaani, was blown up by the Russians in 1716 during the Great Northern War. The ruins have been protected and are one of the most important landmarks in Kajaani.

Season: Year-round, open 24/7

Suggested Programs

for 5 days Summer and Winter Breaks in the Kajaani-Oulujärvi Region

Summer, Culture and Lakeside Activities, 5 days trip

Day 1: Arrival

Flight to Kajaani airport via Helsinki, transfer to your accommodation. Check-in and time to explore the accommodation. Perhaps a dinner with local flavors at the hotel or in the city center. The Finnish summer nights are full of light, so you might enjoy a drink on a summer terrace.

Day 2: History and Art Day

Your day starts with a guided history tour with Kajaani Tourist Guides. During this tour you are guided through the streets of Kajaani and you hear about the fascinating people and events that the city has witnessed. After the tour you have time for a nice lunch in one of the restaurants in the city center. The Kajaani Art Museum is your next destination – entry is free and you can either go through the rooms by yourself or book a guided tour. The Art Museum's building is an old police station and a functionalistic work of art itself. After the Art Museum you can stop for a cup of coffee before heading to the last stop of the day: Kainuu Museum. Entry is free here as well and there are two exhibitions: the basic one that introduces you to the region's history and another exhibition that changes a few times a year. You can book a guided tour or go by yourself.

Day 3: Paltaniemi Day

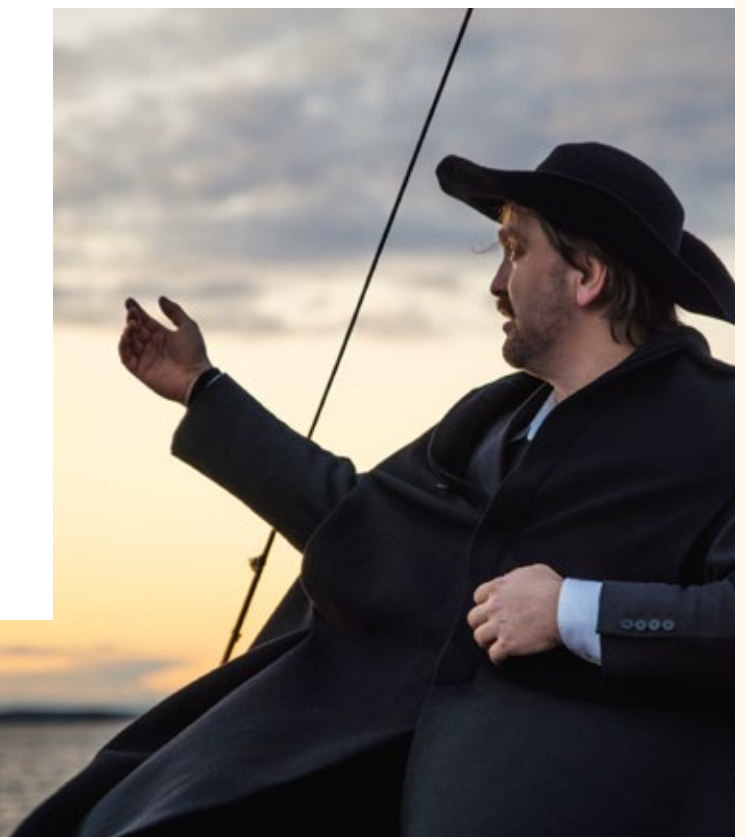

Paltaniemi is a lovely village 10 kilometers from the Kajaani city center. You visit the Paltaniemi Old Church, a 300-year-old church that is famous for its ceiling paintings. In the summer, there are guides at the church during its opening times. Next, you visit the Eino Leino House, which is only a hundred meters from the church. You can sit for a coffee and a snack and learn about the national poet of Finland. After this cozy stop, you continue to the Paltaniemi beach. You can swim, enjoy the sun or just admire the great Lake Oulujärvi. When it is time to return to the city center, you can go for a late leisurely lunch in one of the restaurants. In the evening you go to a steamship cruise on the 100-year-old steamship Kouta, that takes you on a time travel trip through the scenery of River Kajaanjoki, that has inspired artists and poets through the centuries.

Day 4: Ärjänsaari Island Adventure

The paradise-like Ärjänsaari Island is your destination today. The motorboat transportation waits for you at Ruunaniemi port, which is 20 kilometers from the Kajaani city center. Then it takes only 10 minutes to reach the island by boat. You have the whole day to admire the clear blue waters, stunning sandy beaches and magnificent green forests. You can go swimming, kayaking or stand-up paddleboarding, fishing, trail running – or just enjoy the beauty of Northern nature. The mystical Ärjänsaari Island has also a colorful history as a rite site for Sámi people and a base of lake pirates.

Day 5: Kayaking on Lake Nuasjärvi

On the last day of your trip, you go kayaking on Lake Nuasjärvi. The guided trip starts from Pyörre Farm where you get the equipment and instructions. You follow along the shores and head towards Rehjänsaari Island. You go around the island and then stop to take a break by the bonfire before returning to Pyörre Farm. On the way back you paddle through the historic Hunger Canal of Kajaani. After this trip you have time to go for a late lunch in the city center and walk around or do some last-minute shopping before returning to your accommodation and heading towards new adventures.

Enjoy Finnish **Winter Wonderland** and Culture Experiences, 5 days trip

Day 1: Arrival

Flight to Kajaani airport via Helsinki, transfer to your accommodation. Check-in and time to explore the accommodation. Enjoy a late dinner with local flavors at the hotel or in the city center.

Day 2: Snowy Lakeside Activities

Your day starts with breakfast at the hotel. Then it's time to head out for a snowshoeing trip. You are transported to the Lake Oulujärvi shore where you hop in a sleigh pulled by a snowmobile. The sleigh ride takes you across the icy lake to the Ärjänsaari Island where you get your snowshoes and take a walk in the snowy, fairytale-like forest. There you enjoy a nice lunch and hot drinks by the campfire. You can make a whole day of it and add ice fishing and arctic sauna with hot tub to this trip. Once you get back to the city, you go for dinner in the city center and spend the evening relaxing.

Day 3: Culture and History Day

Today you learn more about the culture and history of Kajaani. The walking tour with Kajaani Tourist Guides takes you through the streets, sights and stories of the city. After the tour you go for lunch and continue on to either Kajaani Art Museum or Kainuu Museum, depending on whether you are more interested in art or history. Then you have some leisure time that you can spend shopping, sitting down in a café or just enjoying the city vibes. Later in the evening you go to Kajaani City Theatre to see a play or to Kaukametsä Culture Centre for a concert.

Day 4: Huskies, Reindeer and Northern Lights

In the morning you visit the Pyörre Farm. There are huskies ready to take you on a sleigh ride through the snowy fields. After the exciting ride you can pat the huskies and also greet the reindeer! Then it's time to pack your bags and travel to Paltamo, 40 kilometers north from Kajaani. You explore the accommodation and its beautiful surroundings. You have a dinner with local flavors and a local wine tasting before the late-time northern lights tour.

Day 5: Snowmobile Safari and Sauna

It's time to go on a snowmobile safari! This safari runs through magnificent snowy forests and you get to admire the landscape from a hill. If you are feeling a bit chilly after the safari, you can go to sauna – and the most adventurous may dive into the snow. Enjoy a good late lunch and spend some time relaxing before continuing your journey to new destinations.
